Project: Փողեն Մունաթ

Participants: Natalie Minasyan, Sereen Sipan, Araksya Gevorgyan, Armen Tamrazyan

Date: 11.05.2024

How to review the project

Hello and welcome to the 'Poxin Munat' project about billionaires around the world. Here are some instructions on how to navigate w=through the project:

- Download the dataset called 'Billionaires.csv' from the folder. This the dataset we have used for the project.

- Download and open the Jupiter Notebook file called 'Փողեն_Մունաթ_DataCleaning.ipynb'. This file contains information about the dataset and thorough explanation of the step we used to clean it.

- Download and open the file called 'Poxin_munat_graphs_analysis.Rmd'. In this file, you will see the main data manipulations and vizualizations.

- **Needed packages**: leaflet, RColorBrewer, gt, gtExtras, leaflet.extras, wordcloud, DescTools, dplyr, ggplot2.

Thank you for taking the time to explore our project!
